

# How to read Armenian page

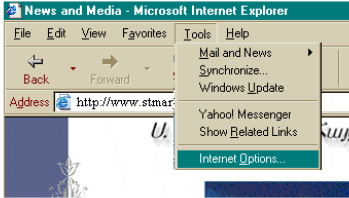

## Instructions

If you don't have our default Armenian font, then you have to download and install it first.

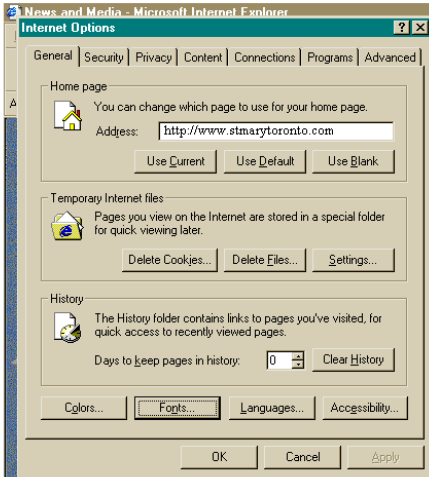

Click here to download Arial Armenian font: [font](#)

### Microsoft Internet Explorer users

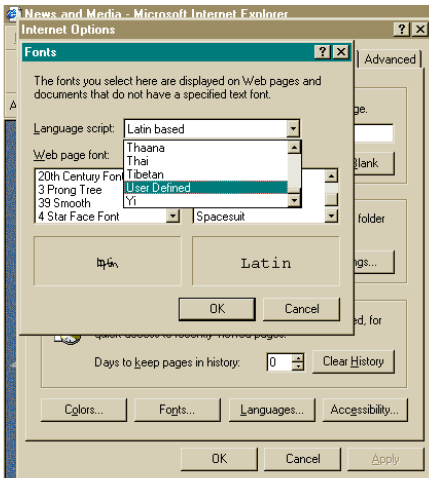

- 1) Click on "Internet Options" in "Tools" menu

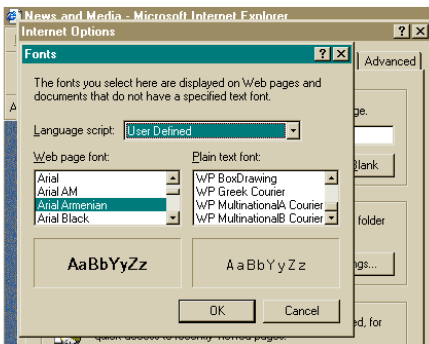

- 2) Click on "Fonts" in "General" slash

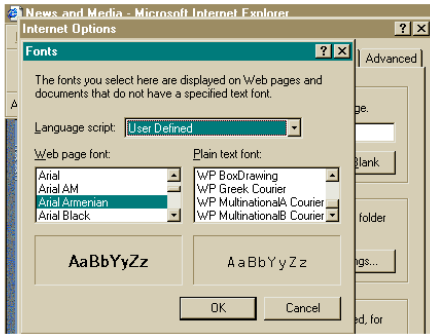

- 3) Change the "Language Script" from "Latin Based" into "User Defined"

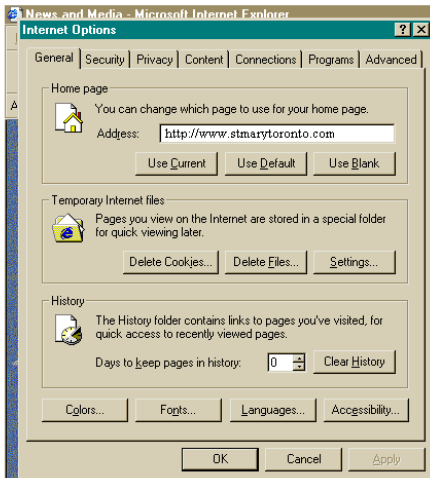

- 4) Change the "Web page font" from "Times New Roman" into "Arial Armenian"

5) Click on OK

6) Click on OK

7) Right-click the page

8) Change the "Western European (windows)" into "user Defined" in the encoding menu
